“Raise Your Money Thermostat” Live Group Clearing Session

Below are the statements we worked with in this session. These were chosen because they showed up as being the most important patterns or matrixes to address for this particular group of individuals taking part in this program at this time.

Lower vibration statements we addressed, by clearing imbalances and energies that were creating alignment with these statements / patterns / matrixes:

I can't succeed doing what I love, I have to choose between money and happiness/ purpose/spiritual life

Having more than I need is scary and wrong

If I make more, I'll be taking it from someone else and that's wrong and selfish

What if I'm not good enough , what if I don't deliver, what if they're not happy?

I'm afraid people will judge me

I can't do it on my own. I can't / don't know how to make money on my own

It's not safe to have lots of money / to be seen as having lots of money

Higher vibrational statements we addressed, by clearing imbalances that were blocking or impeding alignment with these statements / patterns / matrixes:

I deserve to have abundance / I am worthy of abundance

I deserve to choose what I do with my life

I can have an abundance of both love and money

It's okay for me to be paid for my healing work / my work

It's safe for people to see me as successful

I am okay with spending money on myself

I can be trusted with money / I can be trusted with a lot of money

It's okay / safe / spiritually aligned for me to be paid well for the work I do

Clearing Statement:

"Everything that's contained in this story or energetic pattern or matrix, and the event or events that created this, please clear them, delete them, transmute them, and de-story them across all time, space, dimensions and realities. Any other resonances, blocks, or residue associated with this story or energetic pattern or matrix, please clear and transmute them now across all time, space, dimensions, and realities."
